

macOS

1. Using Preview:

- Open the screenshot in Preview.
- Go to **`File` > `Export as PDF`**.
- Choose the destination and name for the PDF file.

2. Using an Online Converter:

- Visit a website like [Smallpdf](#).
- Upload your screenshot.
- Follow the instructions to convert and download the PDF.

3. Using PDF Software (e.g., Adobe Acrobat):

- Open Adobe Acrobat.
- Click "Create PDF" from the toolbar.
